Notification Change

DIRECTIONS FOR USE: Kills chinch bugs, ants and earwigs in lawns and turf.
Apply Safer's Trounce Hose-End Lawn & Turf Insecticide using the hose-end applicator provided (attached). Applicator will accurately dilute this concentrated insecticide for treatment of lawns. NOTE: Hard water (pH is above 7 and high in mineral content) can cause sprayer to clog. Use softened water whenever possible.

1. Read the complete label for application instructions and precautions. Make sure knob indicator is in the locked OFF position.
2. Shake well before attaching to hose.
3. Screw the longer end of the hose-end attachment onto the hose.
4. Turn faucet on.
5. Begin spraying by bending lock tab back and turning the knob clockwise until the indicator is in the ON position.
6. Walk at a steady pace spraying in a side-to-side arc slightly overlapping treated areas.
7. When spraying is complete, turn knob counter clockwise past the lock tab to stop product flow.
8. Turn off faucet.
9. Release pressure in the hose by turning knob closewise until the indicator is in the WATER position.
10. When pressure has been released, turn the knob counter clockwise past the lock tab to the OFF position.
11. Unscrew bottle from hose. Store out of reach of children.

CAUTION: Rate of delivery of product will vary depending on water pressure, location, time of day, length and diameter of hose, etc. Complete contents of container (1 L) can be sprayed in approximately 4-8 minutes.

APPLICATION:

To kill chinch bug, ants and earwigs: Insects must be sprayed directly to achieve proper control. Apply product to wet, ensuring thorough coverage of all plant surfaces. Repeat 10-14 days later if necessary.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Product can cause skin and eye irritation. Avoid contact with skin and eyes. Potential skin sensitizer. Keep pets and children out of the treated area until after the spray has dried. Do not apply to blossoms or when temperatures exceed 28° C. Do not use on sweetpeas, nasturtiums or delicate ferns. Spinach and schizanthus may be sensitive to topical foliar spraying. If in doubt about a sensitive species, spray a small test area on a plant before treating entire plant. This product is toxic to fish. Do not apply where runoff is likely to occur. Do not contaminate streams, lakes or ponds.

DISPOSAL: Do not reuse empty container or applicator. Dispose of applicator and empty container in household garbage.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN/CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.

Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.
