

AccuTreat 830
Liquid Microbicide
INDUSTRIAL

READ THE LABEL BEFORE USING

GUARANTEE:

Poly(oxyethylene(dimethyliminio)ethylene(dimethyliminio-ethylene dichloride).....15%(by weight)

REGISTRATION NO. 24013
PEST CONTROL PRODUCTS ACT
Net Contents: 205 Litres

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes all risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

AccuChem
2435-80 Avenue
Edmonton, AB T6P 1N3

Broad spectrum liquid microbiocide for the control of Algae, Bacteria and Fungi.

Non foaming
Effective at both acid and alkaline pH

DIRECTIONS FOR USE

1) Cooling tower systems: Prior to use in water cooling towers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 280 to 700 ml per 10,000 litres of water should be added to the sump of the water cooling towers. Repeat the initial dosage until control is evident. Subsequent slug additions of 80 to 700 ml per 10,000 litres of water should be added every 2 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem.

2) Industrial air washing systems: Prior to use in air washers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 100 to 160 ml per 1000 litres of water should be added to the sump or the water collector trays. Repeat the initial dosage until control is evident. Subsequent slug additions of 70 to 160 ml per 1000 litres of water should be added every 1 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the

severity of the microbiological problem.

For use only in systems equipped with effective mist eliminating components.

PRECAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with eyes, skin and clothing and the contamination of food. Wear safety glasses (goggles), rubber gloves and body-protective clothing.

FIRST AID

Eye exposure: Flush with clean, cool water for at least 15 minutes or longer until irritation subsides. See a physician if irritation occurs.

Skin exposure: Wash with a mild soap and water. See a physician if irritation occurs. Remove and wash contaminated clothing (including shoes) before reuse.

Inhalation: Use proper respiratory protection to immediately remove the affected person from exposure. Administer artificial respiration if breathing has stopped. Keep at rest. Get prompt medical attention.

Ingestion: Do not induce vomiting. Rinse mouth with copious amounts of water or milk first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of milk or water.

Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose, comatose or convulsing, do not give fluids by mouth. In all cases seek immediate medical assistance or contact poison control centre. Take container, label, or the product name and Pest Control Products Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage.

DISPOSAL

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of empty container in accordance with provincial regulations.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, or for cleanup of spills.
